

TECHNICAL DATA SHEET

ECO SOLV-IT

PRODUCT DESCRIPTION: Cleaner & Degreaser

Eco Solv-It is an industrial strength cleaner and degreaser, made from all (100%) bio-based ingredients. It removes tar, asphaltenes, lubricants, greases and heavy oils. It can also be used as a parts washer solvent and an equipment degreaser. It also dissolves adhesives and waxes. The product has been used by oil & gas companies, road crews, asphalt & roofing companies, Industrial machine shops, Flooring companies, and Automotive & Manufacturing shops.

FEATURES

- Readily Biodegradable
- No Ozone Depleting Compounds
- No Carcinogens
- Neutral pH
- 100% Bio-based Ingredients
- No Hazardous Air Pollutants
- No Nonyl Phenol Ethoxylates
- Positive Regulatory Profile

APPLICATIONS

Eco Solv-It can be applied neat or diluted up to 10:1 with water depending on severity of the problem. Simply spray onto surface and allow to sit and rinsed off.

TYPICAL PHYSICAL PROPERTIES

➤ Appearance.....	Clear to pale yellow liquid with citrus aroma
➤ VOC Content.....	60-95% by Volume
➤ Vapor Pressure.....	<2mmHg @ 68°F
➤ Specific Gravity.....	0.850-0.859
➤ Boiling Point.....	310°F
➤ Freeze Point.....	10°F
➤ Flash Point.....	120°F

PACKAGING

Eco Solv-It is shipped from the manufacturing facility and regional distribution centers in 5 gallon, 55 gallon and 275 gallon containers. Bulk quantities are available upon request.
