

TECHNICAL DATA SHEET

NUGEN CARPET CLEANER

TECHNOLOGY DESCRIPTION: Benign Chemistry with Application-Specific Bacteria

Nugen Carpet Cleaner is a liquid concentrate for use as a biologically-based carpet cleaner. The surfactant package and the added, stabilized enzymes offer immediate cleaning of a wide variety of stains on carpets. The application-specific bacterial consortium penetrates deep into the carpet fibers for degradation of residual contaminants that may cause odors or recurrence of stains. NuGen Carpet Cleaner is highly effective against pet stains and pet urine odors, along with stains such as oil, grease, cosmetics, milk, soda, wine, juices, coffee, blood, vomit, etc. Finally, the product can also be used on upholstery.

FEATURES

- Odor encapsulating technology binds and traps odors immediately
- Mechanical and Manual Applications
- Readily Biodegradable and Eco Friendly
- Neutral in pH and does not require rinsing
- Particularly effective against pet stains and urine pet odors.
- Conditions Fibers to Prevent Resoiling
- Removes a Wide Range of Stains
